ALL ABOUT ELECTRICITY

Electricity Eurasia will bring together the leading manufacturers shaping the electrical and electrical equipment industry, along with the construction sector, contractors, procurement professionals, investors, panel builders, engineers, architects, interior architects, the public sector, and academia under one roof for the 3rd time. By placing electricity at its core and uniting all related sub-components within its scope, the fair provides an efficient meeting ground for professionals to evaluate the best solutions and suppliers by maximizing the time efficiency for the essential infrastructure items needed in facility and construction projects.

Furthermore, **Electricity Eurasia** will host a wide range of activities for exhibitors and visitors, including B2B meetings, start-up initiatives, and dedicated spaces focused on innovation.

Focusing on growth, modernization, and procurement needs in electrical infrastructure, as well as the future of the industry and emerging trends, **Electricity Eurasia** will bring industry stakeholders together for productive collaborations on **16–18 September 2026** at **Yenikapı Eurasia Performance and Art Center**.

Electricity Eurasia

WHY EXHIBIT?

ENGAGE YOUR TARGETED BUYERS WITH B2B MEETINGS

Build connections with your potential customers through B2B meetings. Expand your sales and business development pipeline with new contacts.

ELEVATE VISIBILITY IN ELECTRICAL INFRASTRUCTURE

Increase your visibility across the core categories of facility and construction electrical infrastructure with a strategic approach.

MEET KEY DECISION MAKERS IN TARGETED MARKETS

Strengthen your export network by engaging with international industry professionals from your target markets.

SHOWCASE YOUR LATEST SOLUTIONS ONSITE

Initiate relationships for procurement lists for upcoming projects and accelerate collaborations

EXHIBITOR PRODUCT GROUPS

- Switchgear Equipment and Components
- **Electrical Switchboards and Power Distribution Systems**
- Protection, Control and Metering Equipment
- **Compensation System and Equipment**
- Transformers
- **Transformer Connection Equipment and Accessories**
- Cable Systems
- **Cable Accessories**
- Cable Management Equipment
- **Busbar Systems and Busbar Connection Systems**
- Connection Equipment (Terminals, Lugs, Connectors)
- **Cable Termination Equipment**
- Hardware and Hand Tools
- **Distribution Line Equipment and Components**
- Insulators
- **Lightning Protection and Earthing (Grounding) Systems**
- Test and Measurement Instruments
- **Batteries, Battery Systems and Uninterruptible Power Supplies (UPS)**
- Generators
- **Solar Equipment and Grid Integration Solutions**
- Electric Vehicle Charging Stations
- **Metal Manufacturers / Copper and Conductive Materials**
- Panels
- **Polymer Materials**
- EPC/Contracting Services
- **Engineering, Project Design and Commissioning**
- Maintenance, Service and Field Implementation Services
- **Building and Facility Automation Systems**

Electricity Eurasia unites the full spectrum of facility and construction electrical infrastructure product groups under one roof. Book your stand to enhance your brand visibility and connect with industry stakeholders.

Electricity Eurasia

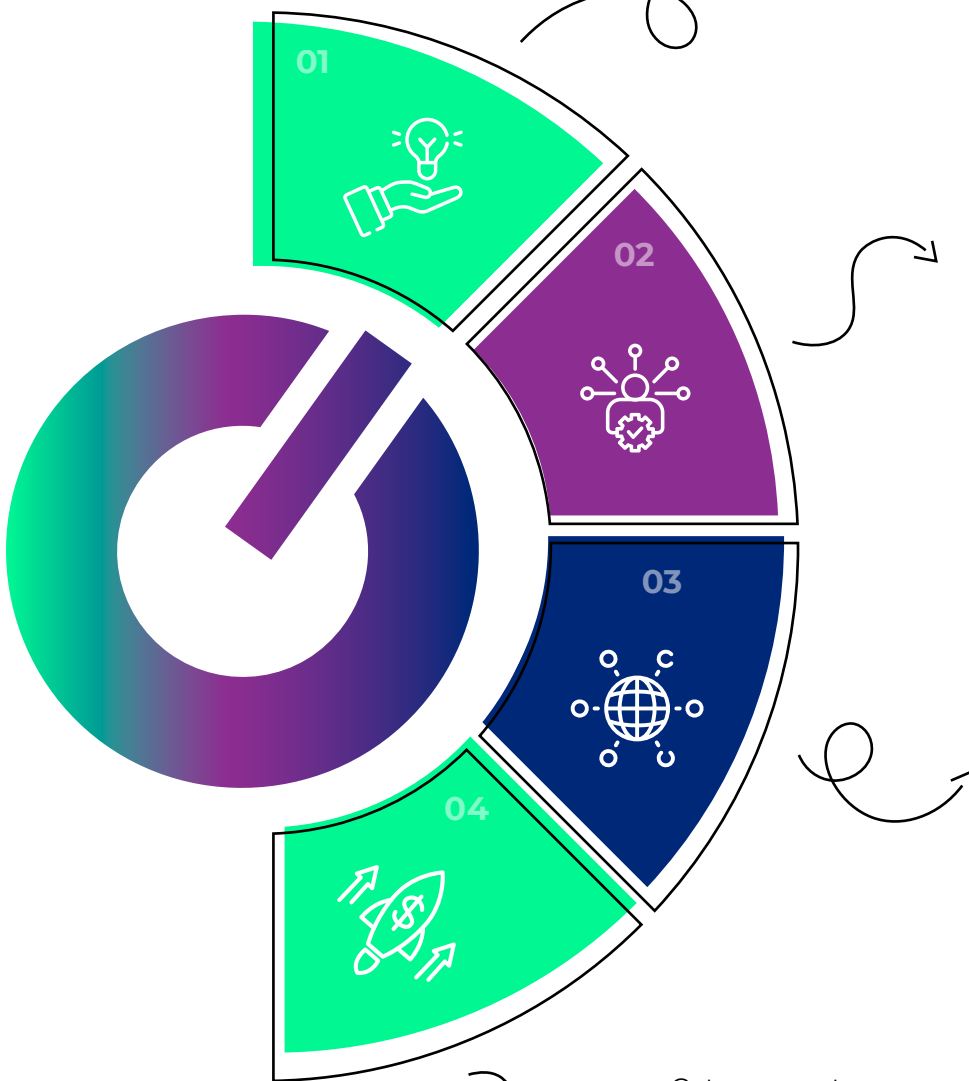

WHY VISIT?

Access the core categories for construction and **facility electrical infrastructure in one place.**

Accelerate your procurement timeline by comparing alternative brands on site.

See new product launches and market trends and refine **your roadmap for upcoming projects.**

Get answers to your technical questions and evaluate maintenance and **operational scenarios with product experts.**

VISITOR PROFILE

- Shopping Mall Management Companies
- IT / Software Professionals
- Government & Public Institutions
- Electrical Project Companies
- Electrical Contracting Firms
- Electricity & Energy Distribution Companies
- Construction & Real Estate Developers
- Architects / Interior Designers
- Engineers, Technicians, Technologists
- Contractors
- Panel Manufacturers
- Facility Management Professionals
- Data Center Managers
- Main & Subcontractors

Electricity Eurasia will bring together all industry professionals interested in electricity and electrical equipment, primarily from the construction sector.

WHAT DID THEY SAY ABOUT ELECTRICITY EURASIA 2025?

Ali Aytemiz

Aytemiz-Makelsan Group, Chairman of the Board

When I look at the generator section of this exhibition, I see an enormous export potential. These kinds of fairs have always been a source of pride for Türkiye. I would like to thank everyone involved in organizing and launching such a valuable event. As the number of these exhibitions increases, more international visitors will come, Türkiye's recognition will grow, and our country's production will gain greater visibility.

Gökmen Özkara

*Center Dış Ticaret A.Ş., Brands
Sales Manager*

Electricity Eurasia is a fair we are attending for the first time. So far, it has met our expectations and continues to do so.

Tarık Akbaş

*Ekos Elektrik, Chairman of the Board
EMSAD, Board of Auditors Member*

We are very pleased to be at Electricity Eurasia today. As EMSAD, we are proud supporters of this fair. Since the opening, the sessions and talks have been highly informative. It's truly a space where the sector is properly represented.

Daniel Deji Ayodele

*Mindshift Empowerment & Employment
Initiative (MEEI), Founder*

Today, we are here at Electricity Eurasia. We have lead a delegation all the way from Nigeria, and it's truly an amazing place to be. We have met 80 exhibitors right here in İstanbul. The experience has been amazing from generators to different kinds of cables. We look forward to doing more with some of these companies.

Cafer Aslan

FMT Group, Country Manager

This is our first time exhibiting in Electricity Eurasia. It was an important fair for us. We are very pleased with the number of visitors from CIS and African countries, as well as with our exports to European countries.

WHAT DID THEY SAY ABOUT ELECTRICITY EURASIA 2025?

Burak Daşdemir

*Chambers of Turkish Engineers and Architects (TMMOB)
Istanbul Branch of the Chamber of Electrical
Engineers (EMO), Chairman*

We are very happy to take part in Electricity Eurasia as the Istanbul Branch of EMO. We also contributed to the fair by organizing a session on energy storage systems. It was a productive and well-attended event. We recognize the importance of such platforms for our industry and would gladly support future editions.

Kadir Yıldız

Emsa Generator, Domestic Sales Director

This is a fair that absolutely needs to take place in Türkiye. It has attracted high-level exhibitors and visitors both from within the country and abroad.

Mehmet Coşar

*Senpa Elektrik Otomasyon,
Owner & Partner*

The fair is quite lively, with a high number of exhibitors and visitors. We've had visits from engineering chambers, sales consultants, and international companies, which is very promising.

Assoc. Prof. Dr. Mehmet Akif Şenol

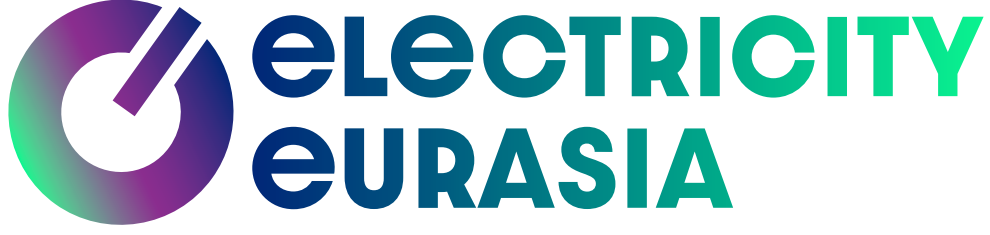

*Istanbul Topkapı University, Head of
Electrical and Electronics Engineering*

Electricity Eurasia stands out with its wide range of exhibitors covering a wide range of the electricity sector. This diversity reveals just how comprehensive and robust the platform is. We strongly believe Electricity Eurasia will make a great impact in Türkiye and grow into an even more influential event on an international scale in the coming years.

Emrah Sarıbaloğlu

Emek Kablo, International Sales Manager

From an industry perspective, this has been a very beneficial fair for us. The presence of EMO representatives and international visitors is particularly significant for Türkiye. We hope the fair will be organized again in the coming years.
